

## Two Die In US-27 Auto Crash

Mrs. Fedora Landsberg, age 48, of Inkster, oldest daughter of Mr. and Mrs. David Montour met a tragic death early last Wednesday morning, when she was instantly killed in an auto crash a half mile south of Gaylord. The car in which she was riding, collided with a truck load of logs, driven by Raymond Griswold of Kingsley, Walker, age 47, of Detroit, also met death in the crash. Mrs. Landsberg had come to Grayling the previous day to visit her parents and make plans for the wedding anniversary that occurs in July.

The remains were taken to Inkster, and were at the Lantz Funeral Home there until time for the funeral services, which were held Saturday morning at St. Norbert's Church. Serving as pallbearers were Dr. J. Lusk, Mr. M. Tompkins, Mr. Hurd, Mr. Luther Thorpe, Henry Larson and Robert Grey of Eloise. Honorary pallbearers were the Misses B. Westbrook, M. Monroe, M. McIntyre, M. Carney, T. Maness, B. Gates and M. Hubbard and Mrs. T. Byers, nurses and co-workers of the deceased. They were in uniform and formed a guard of honor at the church entrance. Interment was in Marble Park Cemetery at Milan.

Marian Fedora Montour was born in Grayling, January 17, 1905. She attended Grayling schools, graduating with the class of 1924, and shortly after graduation entered Mercy Hospital Training school for nurses graduating with the class of October, 1927. She was employed at Mercy Hospital for a time and then went to Detroit where she worked at various hospitals and at the time of her death was employed at the Wayne County General Hospital in Eloise.

Mrs. Landsberg, even though residing away from Grayling had kept in close touch with her old home and friends, and her visits were always looked forward to with a lot of pleasure. Being of an exuberant type she seemed to radiate happiness wherever she went. One never saw her in a serious mood, as she was always beaming over with enthusiasm and fun. Everyone was her friend and it goes without saying that she had hosts of them.

Surviving the deceased besides her parents are five sisters, Mrs. Charles Mott and Mrs. Urban Doty of Wayne, Mrs. Fred Hanselman of Milan, Mrs. James Bixler of Inkster and Mrs. Arnold Gallier of Flint. All have the sympathy of their many friends in Grayling.

## World's First Christian Western Film To Be Shown Here Sunday

"Mr. TEXAS," called "the world's first Christian western" will be shown here Sunday June 7 at the Sportsmans Building at 2:30 and 4:30, according to an announcement today by Rev. Don Cleveland of the Free Methodist Church and Rev. Hollie Luter of the Calvary Baptist Church, in charge of the local presentation. The film is the first major production of Billy Graham Evangelistic Films, Inc., and features the famous young evangelist and his entire evangelistic team. Playing leading roles in the full length color picture are Redd Harper and Cindy Walker, both professional western stars who have recently made their decision to give their lives and talents to Christian service.

Produced as an experiment, "Mr. TEXAS" has amazed religious leaders and motion picture authorities alike during its first series of showings. At the film's preview in Hollywood Bowl on October 1, 1931, a record throng of 25,000 persons jammed into the huge amphitheatre for the largest attendance any motion picture has ever had in this country. During the past year of showings an estimated 3,000,000 persons have seen the film. From this number of viewers some 85,000 have made decisions to accept the Christian way of life according to records on file in the Graham film organization's Washington, D. C. office. Both figures indicate new highs in evangelistic circles — 3,000,000 is the largest number ever to see a Gospel film in one year, and the 85,000 decisions represent the largest single evangelistic effort during recent years.

The story revolves around the Billy Graham Crusade in Will Rogers Coliseum in Fort Worth, Texas one year ago. To produce the film, an entire motion picture company moved from Hollywood to Texas and made all of the Texas scenes in the vicinity of Fort Worth. The rodeo scenes, some of the most beautiful color photography being seen today, were made at Hardin Simmons University, and feature the world champion Mayo Rodeo Riders, together with the famous Hardin Simmons Cowboy Band.

Original music for the picture was composed by Cindy Walker, called the "true queen of western song writers," and Redd Harper. Several of the songs from "Mr. TEXAS" have appeared recently on records, and complete albums are available.

In several cities where the film has been shown it has been necessary to schedule two and three showings per night, and often return engagements have been demanded. Here, the picture will be shown at 2:30 (with a second showing at 4:30 if necessary).

No charge for admission is made for "Mr. TEXAS" and the doors of Sportsmans Building will be opened at 2:00 o'clock.

## Mid-Street Angle Parking Returns

Angle parking in the middle of Michigan Avenue from US-27 east to Peninsular Street returned last week when the City repainted parking lanes and cross walks.

City Manager Russell Carlson said the return to the angle parking was undertaken because nearly twice as many cars could be parked and that it was easier for motorists to park that way and to get their vehicles back out. He warned, however, that due to the slight elevation in this block that it was necessary to firmly set the parked vehicle brakes or place the car in gear. Any car that rolls away from its parking place and causes injury to another vehicle, building or person will be ticketed, he said.

## Most Benefits For The Most People

Congressional hearings have been held on a \$300,000,000-plus project for developing a large amount of additional hydroelectric power on the Niagara River. The project is both feasible and necessary. Only one question has held up the development and it is: Shall the project be built and paid for by a group of operating utilities in the region, which would start work as soon as authorization is given them, and which would sell the resultant power at publicly-regulated rates and pay heavy taxes while doing so? Or shall the project be undertaken by government, on a tax-exempt socialized basis with the people's tax money?

For fifty years it has been the national policy to develop natural resources in the manner that will bring the most benefits to the most people. Private enterprise development at Niagara fits this principle like a glove. The work would be done in the shortest period of time, and the most economical manner. Power would be sold to all customers on an equitable basis, as determined by public service commissions, whereas, under socialized development, "preference clauses" always give the advantage to certain small groups at the expense of all the rest of us.

One empty argument against private enterprise development is that natural resources shouldn't be exploited for private profit. If this idea had been followed in the past we'd be a thoroughly socialized and regimented nation today. In the Niagara case, the companies involved would make no profit at all on the water. They would make a profit, and a moderate one only, on their investment in equipment. In addition to all other taxes, they would pay a substantial fee or rent for use of the water to the state of New York, and the water would still flow on for other uses.

The Niagara situation is 100 per cent clear cut. It involves only electric power—there are no irrigation,

flood control or other such factors. It is not connected in any way with the St. Lawrence Seaway scheme. The sole issue is whether we shall have more freedom-destroying, tax-eating socialism forced down our throats—or whether we shall affirm our faith in the private enterprise system that has served us all so magnificently.

Do you know  
what this car  
can do?

It can set you a tingle with thrill.  
It can move from zero to legal speed  
quicker and quieter than any Buick  
before it—and with the utter smooth-  
ness of a gull in glide—because this  
is a 1953 Buick with the spectacular  
getaway of Twin-Turbine Dynaflo.  
It can loaf easily up a long steep hill  
—swoop instantly ahead when there's  
safe passing to be done—or whisper  
along at highway pace with throttle  
barely open—because this is the  
Buick powered with the world's most  
advanced V8 engine, with record-  
high compression of 8.5 to 1.

It can surround you with comfort,  
luxury, restful ease.

It can velvet a rough road with its  
even softer all-coil-spring cushioning  
—track true on curves with its solid

torque-tube steadiness—handle like  
a flyrod with its Power Steering\*—  
gentle to a precise halt with its  
Power Brakes.\*

And it can seat you in the superb com-  
fort of true spaciousness—because  
this big and brawny beauty is the  
Buick SUPER Riviera Sedan—room-  
iest six-passenger sedan made in  
America.

Above all, this car can give you  
supreme value—more room, comfort,  
power and thrill for the money than  
you can find elsewhere.

Why not come in and see it, drive it,  
compare it? We'll be happy to  
arrange matters.

cost on other Series. †Available at additional  
cost on Super and Roadmaster models only.

## IN MEMORIAM

In loving memory of our dear husband and father Frank Cassel whom God called home June 2nd, 1949.  
Deep in our hearts lie a picture  
Of a loved one laid to rest  
In memory's frame we shall keep it  
Because he was one of the best  
He had a nature you couldn't  
help loving  
A heart that was purer than gold  
And to those who knew him and  
loved him  
His memory will never grow old  
Greatly missed by his loving  
wife Elizabeth, children and grand  
children.

Hold Area Dorcas  
Federation Meeting

Several from Grayling attended the meeting of the North Michigan Dorcas Federation at the Mio Seventh-day Adventist church and parochial school Wednesday, May 27 at which the guest speakers were Mrs. H. W. Kleist of Chicago, Illinois, the founder of the federation plan, and Elder A. K. Phillips of Lansing, Michigan, the director of welfare and missionary activities of the Michigan Conference of Seventh-day Adventists.

The key thought of the meeting was expressed by Elder Keith Morey of Traverse City in the devotional exercises, namely, exercising love and mercy towards the less fortunate.

Reports were given by the various Dorcas societies giving experiences, projects, and activities in carrying out this purpose of the Dorcas society. The reports emphasized the society as not being merely a "sewing circle" but a humanitarian agency in which food, clothing, treatments, and acts of helpfulness were given to the shut-ins, the sick, the needy, the dying, together with their families; in short being a friend indeed to a friend in need, helping where ever there was an actual need and whenever the occasion calls for it.

The North Michigan Dorcas Federation comprised of the Dorcas societies of the following churches: Alpena, Bliss, Boyne City, Central Lake, Cheboygan, East Jordan, Frankfort, Gaylord, Glennie, Grayling, Mio, Onaway, Petoskey and Traverse City.

A picnic lunch was served at the school grounds.

Gentlemen:

Nice to learn from Michigan

This in Spike's advertisement.

Wish we might secure a copy.

Enclosing some stamps. The writer's

father was a subscriber from back in the

Eighty's to 1910, when he died. His initials were M. E. instead of M. A. (Hagerman). He

homesteaded the N. W. 1/4 of Section 18

Beaver Creek, not far from Cemetery, on Crawford-Kalkaska

County line. Plenty of oil found there since. Logged for Salling.

Hansen, till plane was gone. He built the little white church on

south side of river as you come into town. believe it was known

as a Methodist Protestant denomination at that time. Old Chief

Shop-ne-gon was a regular guest at his house. Sit on the floor

wrapped in his blanket and ask every day why the white people

worked so hard all the time. Said "Shop-ne-gon never work, eat all

time", just same.

Thank you kindly and best wishes.

## YOUR MILK...

Did you ever go back to your hometown after an absence of fifty years? Before leaving you thought this will be a pleasant trip. Years ago you knew so many and so many knew you. In your dreams you were going to visit friends of the old school and playground. You soon learned many had gone to all parts of the world as you had. As you visited the silent city on the hills, and read on many marble slabs the names of those you knew when they were in their bloom of life. The few remaining ones were not even interested in you, as you were gone so long and soon will be going again. The gap of absence was too great. The bridge of friendship could not span it. Old familiar scenes had changed so much you hardly knew where you were. The disappointment and strangeness of it all made you feel that the past held no desire for your homecoming.

To produce milk is our business. To us it is your business. We feel if we can get together we can both profit by doing so. Let's try it and see if this is not true. It is sold by Hunter's AuSable Dairy in Grayling.

**A Little Headwork Saves a Lot of Footwork**

"I don't ever aim to give up fishing," Pappy Hayes said one day—"but the older I get the less I like hiking over to Pike's Creek. Guess I'll have to bring the fish nearer to me."

So Pappy got his nephew to bulldoze down about three acres of bottom land. Then he dammed up the little stream there.

He wrote the U.S. Fish and Wildlife Service, in Washington, and got some "blue gills" and bass to stock it—free. Pappy's idea wound up giving him (and us) just about the best fishing pond in the county ... right in his own back yard.

From where I sit, Pappy may be older than some of us but his mind is active and open. He's ready to listen to anybody with an idea. That's why he and I can talk on any subject—sometimes about his preference for buttermilk and mine for beer. And though we disagree, we respect each other's opinion. That's neighborliness without a "catch" to it.
